

RESIDENCE D

3 BED / 3.5 BATH

SF Area:	
Conditioned	2,738
Terrace	540
Total Living	3,278

1/8" Scale

Square footage shown represents the 40th level. Please see sales associate for exact square footage and dimensions for a specific residence.

Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. For your reference, the area of the Unit, determined in accordance with these designed unit boundaries, is set forth above and is labeled as "AC" (Terraces, although included in the total square footage, are not part of the Unit). Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications, and other development plans are proposed and conceptual only, which are subject to change and will not necessarily accurately reflect the final plans and specifications for the development.
